REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. As shown in the prior art of record, for example US Patent 5,680,393 to Bourmeyster et al., communication devices combining echo cancellation and noise suppression are well known. In addition, the prior art teaches (Bourmeyster, Fig. 3) that an input signal $(s(t)+e(t))$ can be subjected to a noise suppression process (14) and the resulting noise suppressed signal $(s^*(nT)+e^*(nT))$ subjected to an echo cancellation process (30). The prior art further teaches (Bourmeyster, Fig. 4) that an input signal $(s(t)+e(t))$ can be subjected to an echo cancellation process (30) and the resulting echo cancelled signal $(s(nT)+e(nT)-\hat{e}(nT))$ subjected to a noise suppression process (14). As such, an order of noise suppression and echo cancellation is inherently determined when one or the other of the configurations represented in Bourmeyster is practiced. However, the prior art fails to disclose or fairly suggest adaptively determining this order based on background noise in the input signal as claimed in independent Claims 1, 9 and 19. As such, these claims are allowable.
3. The remaining claims are allowable due to dependence from their respective base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Swerdlow whose telephone number is 571-272-7531. The examiner can normally be reached on Monday through Friday between 7:30 AM and 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sinh H. Tran can be reached on 571-272-7564. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
